Smooth Surface

Como pode ser observado nas imagens acima, a mesma cor (Dourado Vintage) apresenta variações visuais dependendo da textura aplicada. Em superfícies com relevo, o jogo de sombras e a área de contato com a luz fazem com que o tom pareça mais claro ou mais escuro.

As shown in the images above, the same color (Vintage Gold) appears differently depending on the texture applied. On textured surfaces, variations in light and shadow create the perception of a lighter or darker tone.
